

# Referral Services available at My Vet:

We are currently developing a range of referral services that we can offer at a local level to our neighbouring practise. We are an RCVS accredited hospital based within easy reach in Junction 31 of the M6. We currently have four certificate holders in Internal medicine, Surgery, Ophthalmology and Dermatology; we also have a further two Vets part way through their studies for Surgery Certificates.

Practice facilities are: CT, gastroscopy, bronchoscopy, Ultrasound including cardiac work ups, 24-hour Veterinary lead critical care and orthopaedic facilities. We can also offer onsite hydrotherapy (pool and treadmill) and K Laser.

We are happy to review case notes and give estimates for procedures that we feel we can manage at My Vet and will happily receive referrals from local practices.

Currently our cert holders in dermatology and ophthalmology are on maternity leave so we are hoping to offer these services again in the Spring.

## Practice facilities are:

CT  
Gastroscopy  
Bronchoscopy  
Ultrasound including cardiac work ups  
24-hour Veterinary lead critical care  
Orthopaedic facilities

We can also offer onsite hydrotherapy (pool and treadmill) and K Laser.

If anyone would like an idea of costings for various procedures, then please contact us on 01254814863 or [a59@myvets.co.uk](mailto:a59@myvets.co.uk) or [clairebatty@myvets.co.uk](mailto:clairebatty@myvets.co.uk)

## Meet the team.....

### Dr Claire Batty BSc BVSc MRCVS CertAVP

I grew up in Mellor and after a 3-year stint in Mixed practice in Cheshire I returned back to my roots and joined My Vet in 2008. I am currently Co Clinical Director and do both clinical and non-clinical work within the practice. I gained my CertAVP and have a special interest in Orthopaedic Surgery. I am also currently working towards a certificate in Emergency Medicine and Surgery.

#### I am happy to accept referrals and provide advice for:

Fractures: would prefer to see the radiographs prior to accepting the case

Cruciate disease: Lateral sutures and TTA.

General lameness workups.

Arthrodesis

Management of traumatic dislocations.

We can CT in house for lameness and have an external provider that performs endoscopy.

Outside of work I am enjoy spending time with my family, riding my horse and walking.

## **Dr Anthony Dennison CertAVP MRCVS**

Originally from Suffolk, I qualified from Bristol in 2012. I joined the practice as a new graduate in 2012 and am now Clinical Lead Veterinary Surgeon. I have always had an interest in internal medicine. In 2017 I completed my CertAVP(SAM) and have continued with special interests, namely oncology, gastroenterology and cardiology (I am currently working towards a second certificate in cardiology). I enjoy working up the more complicated cases due to the challenges they represent, and working alongside my surgical colleagues to get the best results for pets and their owners.

### **I am happy to accept referrals and provide advice for:**

Oncology Cases - staging and chemotherapy treatment  
Gastroenterology - case work up, imaging (ultrasound, CT, endoscopy)  
Bronchoscopy  
Endocrine cases

Outside of work I enjoy coaching at my local rugby club, walking my Labrador through the Lancashire countryside and spending time with my young family.

## **Dr Roslind McKenzie Bsc (hons) BVSc (masters) MRCVS**

I graduated as a veterinarian from Onderstepoort at the University of Pretoria in South Africa in 2008. Previous to this I did an undergraduate degree and an honours degree in Zoology. I have worked in general practice as well as in the welfare sector in South Africa, where I developed a strong interest in soft tissue and emergency surgery in the last few years. I moved over to the UK in March 2019 with a view of furthering my surgical career by starting a certificate in small animal general surgery. I am currently studying towards a certificate in small animal surgery through Improve International.

### **My specific interests in the soft tissue field are:**

BOAS surgery  
Skin reconstructive surgery  
TECAs  
Parathyroidectomies  
Total Cholectomies  
Nephrectomies  
Cholecystectomies

I am strongly focused on increasing my exposure to more and varied surgeries and have experience in orthopaedics.

Outside work I enjoy spending time with my dog, Faith, painting and playing hockey.

**To make a referral please send a full history and covering email to [a59@myvets.co.uk](mailto:a59@myvets.co.uk) we aim to get back to you within 24hours. If it is an urgent case i.e. fracture/ critical care case, please mark as URGENT in the subject.**
