

## Specialist for a day

Have some tricky cases you want to discuss? Keen to pick up some new surgical skills? Want to upskill your team in anaesthesia provision/monitoring?

**Borrow one of our Specialists for the day!**

Currently available in:

- Internal Medicine
- Anaesthesia
- Soft Tissue Surgery
- Orthopaedic Surgery

Please note this is designed to be a support/guidance/learning opportunity and Specialists will not see cases or directly perform procedures in your practice.

We will liaise with you to organise the plan for the day which may be a combination of practical/small group teaching, case discussions and procedural guidance.

Please contact Andrew Kent, Blaise Clinical Director, to organise any of the above – [andrew.kent@ivcevidensia.com](mailto:andrew.kent@ivcevidensia.com)
