

Southdown's Pet Ambulance Ltd

Trading As

Pets 2 Vets

Southdown's Pet Ambulance Ltd T/A Pets 2 Vets was born out of the love we have for animals and our vets. One day we were having a general chat about our non-profit organisation with our vet Imogen (Crossways), and she asked if we provided transport for pets. At the time we didn't, but Imogen got us thinking, so we went ahead in creating a completely new business to provide transport for your pet to any of Crossway's surgeries and not just for emergencies but for routine appointments as well.

Your pet's safety and welfare are our priority whilst they are in our care, and we hope to be the preferred transport choice for all your pet's transport needs. In addition, our ambulances can also help with transporting your pet to any other services and locations you use such as kennels, dog groomer etc All our vehicles carry oxygen and all the necessary first aid equipment such as blood-stop, bandages, sprays etc.

All our staff have completed and passed the Pet First Aid certificate to ensure if your pet requires any urgent medical treatment on the way to the vet there will be a trained member of our staff on board to ensure your pet is receiving a 5-star service from us.

We are fully insured with Pet Business Insurance.
