

The difference between
Pet Health Club and Insurance
and why you need both...

Our **Pet Health Club** is a preventative healthcare plan, carefully designed to help ensure that your pet remains healthy through regular vet and nurse examinations, vaccinations and parasite control. The plans enable you to **save money and spread the costs** with convenient Direct Debits. Members of the Pet Health Club are also entitled to discounts on a range of additional services and products such as neutering, dental treatment and pet food.

Choose the level of care that suits you. All the plans enable you to make great savings on the annual costs of what we call "preventative maintenance" – all the things that keep your pet in tip top condition. Regular examinations with vets and nurses can also help with early diagnosis of some conditions, which can lead to better chances of a positive outcome and peace of mind for you.
