

*****NEW FOR 2024*****

ALL INCLUSIVE TARGETED WORMING PROGRAMME

DATE	TREATMENT
January - February	Tapeworm Saliva Test
April - May	Worm Egg Count
June - July (optional only if required)	Worm Egg Count
August - September	Worm Egg Count
November - December	Blood sample Encysted Redworm

As part of our ongoing commitment to improve horse welfare and a recent improvement in the accuracy of saliva testing, we are now offering an all-inclusive package at cost price to us. This is to encourage all our clients to move towards a targeted worming programme rather than a 'blanket' wormer approach. Our new all-inclusive targeted worming programme is £122.50 and includes a Tapeworm saliva test, 3 x worm counts, blood sample for Redworm (must be done on zone day for visit fee to be included) and any wormers required for the full year for 1 horse/pony. Registration for this service will only be available during January and February, if interested please call reception on 01505 610100.
