Terms and Conditions

We only accept cats at Pegasus House Cattery with up to date vaccinations for Feline Enteritis and Feline Calicivirus (cat flu), and that have been treated for fleas and worms (parasites). It is a requirement that the minimum time between your cat receiving a vaccination and entry into the cattery is 14 days. This will allow any adverse reactions to the drugs to clear, and will protect your cat properly. You must bring your cat's current vaccination certificate with you.

By giving us your email address, (online or in house) you are automatically opted in to receive offers and newsletters from us. We do not sell your details to any third parties and you can unsubscribe at any point.

We are happy to administer medication to your cat(s) while boarding. This will incur an additional charge. Any cat suffering or suspected to be suffering from any infection illness or disease during their stay, will be removed to our isolation facility, for both their own and our other boarders safety, pending advice from our onsite veterinary surgeon.

In the unlikely event that your cat does become unwell, we will endeavour to provide the best care for your cat. All veterinary care will be provided by Pegasus House Veterinary Centre unless otherwise stated on booking form. All costs incurred are the responsibility of you the cat's owner. We will aim to inform you if costs rise above Cattery Vet Examination Fee.

We take great care to ensure that we remain free of fleas and worms, so that your cat does not contract them while staying with us. If we find a cat in our care has either we will again speak to the vet, and treat the cat accordingly. This will incur a charge.

It is now a requirement that all cats boarding here are provided with a scratching post/board, if you do not wish to bring your own, one will be provided for you at an additional cost.
