

June 2020

Here to help during COVID-19 Crisis

We are here supporting our first opinion colleagues throughout this challenging period. Both to treat cases and give advice.

Throughout the pandemic we have been treating emergent cases, but as lockdown and social distancing continues it is important we are also provide for the less emergent cases.

We know this is a difficult area and we are happy to assist you in assessing these patients on a case-by-case basis. Cases such as cruciate repairs, tumours etc...

Like many of you we are adapting our ways of working and are providing telephone and video-consult advice. We also have the facility for paid-for teleconsultations with owners when needed.

If you feel that a case is progressing fast, debilitating to the patient or causing pain, let's talk about it and together we can make an appropriate plan.

If you are in any doubt, please pick up the phone or drop us an email, we are here to help you and your patients through this.

We know you're doing an amazing job, under difficult circumstances. If we can help in any way, just let us know.

What we do

- Ophthalmology
- Orthopaedics
- Soft Tissue & Spinal Surgery
- Dentistry
- Laparoscopy
- CT Scanning
- MRI
- Ultrasound
- Internal Medicine
- Radioactive Iodine
- Dermatology
- Neuro Diagnostics

CPD Events – online and on demand

As we are unable to hold our usual in-house events or invite you over to spend time with us and a referred case, we have moved our CPD online and are hosting regular events. If you would like to register for our next online session or be notified of future events please email us at referrals@rowevetgroup.com or follow us on Facebook.

Meet the team spotlight on...

Kate Murphy

BVSc(Hons) DSAM, DipECVIM-CA FRCVS PGCert(HE)
European Veterinary Specialist in Small Animal Internal
Medicine and RCVS Specialist in
Small Animal Medicine

Kate graduated and completed her residency in Small Animal Medicine at the University of Bristol. She worked in private before returning in 2002 until 2011, as a Senior Clinical Fellow in Small Animal Emergency Medicine and Intensive Care and Medicine Team Leader.

Since then she has worked as a Small Animal Medicine Referral Clinician in private referral practice in South West England as well as a major laboratory providing a telemedicine service. Kate joined Rowe Referrals in October 2017 and now offers a comprehensive internal medicine service.

Kate is an RCVS Specialist in Small Animal Medicine and a EBVS® European Veterinary Specialist in Small Animal Internal Medicine and has interests in all aspects of medicine. She is co-author of the textbook “Notes on canine internal medicine” and “Differential Diagnosis in the Dog” and is also an author on a number of peer-reviewed publications, continuing education articles and book chapters.

She has also just co-authored our first Clinical Advice Sheet on How to approach the yellow cat.
