

ANIMAL HEALTH CERTIFICATE

KEY POINTS TO REMEMBER

Only OV trained Vets can complete an Animal Health Certificate - our OV Vet is Michael Rimmer (Whalley/Clayton)

Dogs, Cats and Ferrets only, we cannot complete for any other species

Passports issued in the EU that are within date are still valid for travel but a UK vet cannot add anything to this e.g. Rabies vaccine would need to be given in the EU country when due

Prices

AHC – 1st Pet - £220.00 + Consultation £53.50 = £273.50 total
AHC – 2nd/additional pets - £110.00
Rabies Vaccine - £95.00
Microchip - £32.50

Each AHC is valid for 1 return trip to the EU and back within a 4-month time limit

Call to book your AHC appointment as soon as you know your travel date & book this in 5-7 days before travel

AHC documents are multiple pages long and take around an hour admin time for our Vets to complete. For this reason, documents will not be available to collect on the day of your AHC appointment, please allow 2 working days to complete.

As our Vets work at multiple branches you may need to collect from a different branch than the one you normally visit and this will need to be signed for on collection.
