

Westmorland Veterinary Group's team of experienced farm vets are committed to providing a personal yet professional service with exceptional levels of veterinary care.

From a couple of pigs to a small flock of sheep/herd of alpaca we understand that your animals are important to you. We aim to work closely with our smallholders to ensure that their livestock are healthy and productive.

We understand the importance of a transparent, fair pricing structure and are pleased to now be able to offer membership of our Smallholders club.

Only £12 per month

FROM THE MILLERS

What is included:

- A 60 minute long on farm health planning meeting per year to review past performance and update herd/flock health plan for the next year. This will include a management calendar and written herd health plan.
- Three in house worm and fluke egg counts to monitor parasite burden throughout the grazing season and allow an appropriate parasite control plan to be implemented.
- Quarterly smallholder specific newsletter.
- Complimentary access to our winter discussion group of quarterly evening meetings covering topical issues and technical advice including one "Ask the Vet" session!
