

The Wheelhouse Veterinary Centre offers a bespoke individual cremation service on-site at our Chesham surgery, to ensure your pet receives the best after care possible. All our individual cremations are carried out by fully trained staff to ensure that the ashes which are returned belong to your pet. This is the Wheelhouse Guarantee.

Individual cremations can take up to two weeks depending on the type of casket you would like your pet returned in. Your pet will be cremated and their ashes returned in a cardboard scatter box unless you request a casket or urn. There are several different caskets and urns that can be supplied by the practice depending on your requirements. Plaques and memorials are also available on request. If it is your wish to supply us with a special casket or urn, then we are happy to transfer the ashes here for you.

## CASKETS AVAILABLE

### Cardboard Scatter Box

This beautiful but simple scatter box comes as standard with all individual cremations.

### Cardboard Scatter Tubes

This elegant scatter tube is perfect for keeping ashes or for scattering ashes in your pet's favourite place.

### Pet Keepsake Box

This bamboo casket has a picture frame encased in the lid in which to place a cherished picture of your much loved pet.

### Solid Oak Ashes Casket

A handmade wooden oak casket featuring a sculptured lid and base. Comes with a brass plaque with wording of your choice.

### Sleeping Cat Casket One Colour

A luxurious handcrafted casket. This is a discreet wooden casket 6-7 inches in diameter.

### Sleeping Cat Casket Two Colours

A luxurious handcrafted casket. This is a discreet wooden casket 6-7 inches in diameter.

### What is included in the price?

The price for this service will vary depending on whether you attended the surgery or had a home visit and the size of your pet.

The type of casket you choose for your pet will also have an impact on the price.

### Do I need to make a decision straight away?

No, The Wheelhouse Veterinary Centre understands that this is an emotional and stressful time. A decision can be made over the following few days and a simple phone call to the surgery can set the wheels in motion.
